

**Green Workforce Development
Santa Rosa Junior College
2019**

Taught, mentored and directed Climate Fellow in supporting Sustainable Operations for the campus with:

- Maintainable Equipment Inventory for all buildings
- Online Document Library: engineering drawings, O&M manuals, energy billing
- Building energy use profiles
- Investigating abnormal energy use profiles through review of BAS data – schedules, sequence of operations
- Troubleshooting innovative solar thermal/condenser water/heat pump system for culinary arts building

Project demonstrated innovation in facility operations and was presented at the California Higher Education Sustainability Conference (CHESC) in 2019.
